Go paper.
Grow trees.

Choosing paper gives landowners a reason to grow trees. These trees become forests that help improve air quality, provide clean water and protect soil and wildlife. The demand for paper and other forest products contributes to landowners planting about 4 million trees in the U.S. every day. When you Go Paper, you Grow Trees. At Grasso Graphics, we know there's nothing new about personal service. We just haven't forgotten that it's what has made us successful. We understand that personal service, pride in our work and value, separates us from the competition. We believe that the key to getting true value from your print vendor can only be achieved through the one on one personal service we are committed to bring to the process of buying any print project. Creating relationships with our customers, under-

standing your goals, and exceeding them, has been the hallmark of our success for more than 40 years.

Our list of clients are leaders in many market segments such as:

- Education
- Manufacturing
- Music
- Health Care
- Retail
- Service

From design to delivery, if it's ink on paper, Grasso Graphics can print it for you!

Go Green With Print

When you choose Grasso Graphics you can be confident that you are Going Green with Print! We use grades of paper which are certified to be manufactured from carefully managed forest resources, as well as dozens of recycled papers with post consumer waste contents from 10% to 100%. Grasso Graphics recycles over 100 tons of paper per year from our facility and we use inks made from vegetable oil. So the next time you consider a print project and are concerned about "going green" choose GRASSO GRAPHICS!
